Modern AM241P 11M-032US All-In-One PC
Modern AM241 Series is equipped with Silent Pro Cooling System. Part of this system is a Server Grade Thermal Module that handles the cooling of different components within the system. Besides that we put the most important key components on the top side so warm air can easily move out and we separate the air flow to make sure the system's temperature stays perfectly under control for a cool and silent operation.
